# Looking to expand in Canada?

[ftn.fedex.com](http://ftn.fedex.com)

## Crossing the border is easier than ever.

Canada has an appetite for American products, consuming over 20% of all U.S. exports. However, expanding into the Canadian marketplace only makes sense if you can do it easily, and above all, efficiently. That's why the FedEx Trade Networks Transport & Brokerage (Canada), Inc., Non-Resident Importer (NRI) program is so appealing. We can assist you with NRI registration, help keep you in compliance, and tailor your supply chain around your U.S. production facilities and customers in Canada.

Easy Access to Canada With the Name You Trust.

## NRI solutions from FedEx Trade Networks.

Using our resources in the U.S. and Canada, FedEx Trade Networks makes servicing your Canadian customers a seamless and efficient process.

**NRI Registration and Account Setup**

**Transportation to Canada**

**Canada Customs Clearance**

**Canada Distribution Center**

**Final Delivery to Canadian Customers**

**Efficient Returns Management**

### Access the Canadian market with ease.

FedEx Trade Networks can help you through the NRI registration process and help ensure compliance with government regulations. Our NRI program represents cost savings by limiting paperwork, reducing international freight and customs charges, and handling returns in a professional and seamless manner.

With the FedEx Trade Networks NRI program, you can also greatly improve your shipment visibility with a host of online information management tools that include tracking, online trade documentation, and fulfillment. For more information, go to [ftn.fedex.com](http://ftn.fedex.com).

### The FedEx Trade Networks NRI program can:

- Provide you with the ability to determine your landed costs up front.
- Minimize customs delays with consistent clearance processing.
- Create a domestic purchase environment.
- Allow for consistent customs processing resulting in timely clearance.
- Simplify customs documentation.
- Enhance sales through direct marketing and deliver pricing that is inclusive of shipping costs.
- Develop an e-commerce solution to build in all costs at the time of the order.
